Lojack / Mobile Gps Tracker Blocker , Handheld Cell Phone Jammer 1570 - 1580MHz  
2020/04/18

Product Name: Mini GPS Signal Jammer Frequency Range: GPS 1570-1580MHz  
Output Power: 30dBm Power Supply: Car Cigarette Lighter 12V DC Antenna: 1pcs  
Omni Antenna Jamming Radius: 1-10 Meters Weight: Approx 0.15KG/PCS  
Dimensions: 20\*20\*80mm Mini GPS Jammer, Car GPS Signal Shield , RF / Lojack /  
Mobile phone / Portable / Pocket GPS Signal Jammer Product Fetures: To blocker  
GPS satellite positioning tracking Not affect mobile phones and other electronic  
equipment's working Small size, light weight, easy to carry Product Applications:  
Car installed for anti GPS tracking Product Specification: Working Frequency  
Range GPS 1570-1580MHz Output Power 30dBm Power supply Car Cigarette  
Lighter 12V DC Antenna 1pcs Omni Antenna Jamming Radius 1-10 meters Weight  
Approx 0.15KG/PCS Dimensions 20\*20\*80mm FAQ: Why is there still a signal on  
the phone's signal indicator when it works? A: It's just an illusion.In fact, the mobile  
phone has been unable to communicate.When you press the pull button, you will find  
that there is no signal on the signal indicator.The cell phone signal shield will not  
interfere with the normal work of other electronic devices. The antenna should be  
installed on the corresponding signs of each channel on the host, and then connected  
to the host power supply. The effective coverage of the shield is a circular area  
centered around the shield, so be careful to choose the location of the shield so as to  
avoid blocking the dead Angle? A: No.This is because the electromagnetic signal  
emitted by the cell phone's signal shield is completely within the country's mobile  
operating band, which only blocks mobile communication.And this signal is always in  
a relatively static state, and will not affect any electronic equipment. Are cell phone  
signal Jammer harmful to people and mobile phones? A: Please rest assured that the  
electromagnetic signal intensity emitted by the cell phone signal Jammer is very  
weak. The test data indicates that this signal strength is far from harmful to the  
human body.At the same time, the mobile phone signal shield is just blocking the  
forward signal of the phone, so that the cell phone cannot be connected with the base  
station, so there will be no damage to the phone itself. Is there any difference  
between the effective shielding distance of the mobile phone signal shield in indoor  
and outdoor use? A: There are.The effective shielding distance (30-40 meters) of the

cell phone signal shield is generally referred to as indoor distance. In open areas, the effective distance of shielding can be several hundred meters. It should be noted, whether they are within the room, or in outdoor use, effective shielding effect of shielding distance has relationship with environmental conditions, such as from the base station near and far, placed, etc. Therefore, when using cell phone signal shield, this factor should be fully taken into account to avoid blocking the dead angle and thus affect the shielding effect. Is the cellular signal shield the same for GSM mobile phones and CDMA mobile phones? A: that's a good question. Because CDMA mobile phone's anti-interference performance is far superior to that of GSM mobile phone, the effective shielding distance for CDMA mobile phone is smaller than that of GSM mobile phone, but the difference is not very large, about 2-4 meters. But it also reminds users to pay attention to some particularly important sites, and should increase the number of mobile phone signal blockers when necessary to ensure the shielding effect of CDMA mobile phones. After working for a period of time, the mobile phone signal mask is hot. Will working long hours damage the machine? A: thank you for your care. This is a normal phenomenon. In the design, we use the thermal conductivity of aluminum alloy to assist the heat dissipation. This can guarantee long time stable work. As a result, the machine will not damage the machine.

## **wifi gps jammer joint**

As most of the maps are stored on your phone, for a long-long time many people were looking for this cool recipe of making something interesting for yourself, Cigarette Lighter Gps Blocker, this serial number is called the imei number, the jamming success when the mobile phones in the area where the jammer is located are disabled.
